The rules of game are rather simple...

Be the last to run out of cards and win the game.

How do you do this?

You will be assigned a shuffled deck of 15 cards.

3 cards will be in your hand at a time.

A coin toss will decide who is the first to play a card.

Whoever is first plays a card to the field.

Your goal is to put your stronger card against that card and WIN!

Each card has an Attack, Defence, and Health value.

Once health reaches 0, that card is destroyed.

The winning card is left on the field.

Be the last player with cards, and win the game!
